**ABS PLASTIC BODY WITH
PREMIUM BRASS HINGES**

- Perfect for cabinet makers, compact spaces, corners, hard to use a tape measure. the 1/32 mm scale is unique feature to have that in the same measurement
- 24" allows to mark full sheet of plywood.
- Thickness of the Tuff Rule is on purpose 1/4" unfolded, 1/2" folded. Perfect use as a spacer. Perfect for drywall hanging and allowing for a gap at the bottom.
- Width of the Tuff Rule is 1 1/2" which is the width of a 2" x 4" so makes is easy to use the Tuff Rule for layout vs carrying a block to mark layouts.
- Angle finder is an additional tool and does not require to carry an additional tool.
- Center Line feature is perfect to find the center point without measuring diameter/radius. Just place the Tuff Rule and line it up to have the same measurement on either side.
